Date: Monday, September 17th, 2012
12:00 PM – 1:00 PM

Title: “How Buildings Impact Health, Wellbeing, and Behavior”

Speaker: Nichole M. Campbell, Ph.D., LEED Green Associate
Assistant Professor, Department of Interior Design
College of Design, Construction and Planning, University of Florida

Dr. Campbell has disclosed no relevant financial relationships. No one else in a position to control the content of this activity has any financial relationship(s) to disclose.

Learning Objectives: The participants should be able to describe the field of Environment & Behavior Studies. The participants should be able to recognize the various influences the built environment has on health and wellbeing. The participants should be able to apply the information to encourage change in practice/work built environments to support health and wellbeing.

Location: HPNP Building - Classroom G301
101 S. Newell Drive
Gainesville FL 32611

Directions: Classroom is located in the HPNP building on the Ground Floor on the Southwest side of the building.
