“Cognitive Enhancement in Older Adults”

Presented by:

Michael Marsiske

Associate Professor of Clinical and Health Psychology
University of Florida

Monday, May 6th, 2013, from 12:00 PM – 1:00 PM
HPNP Building - Classroom 1101

Classroom is on the east side of the HPNP lobby and one floor up.

Learning Objectives: At the conclusion of this presentation, participants should be able to:

1. Understand the trajectories of normal cognitive aging, and various approaches to cognitive enhancement in older adults
2. Appreciate the current state of knowledge regarding the effectiveness of various intervention approaches
3. Recognize critical data needs for next-generation cognitive enhancement research and clinical practice

Dr. Marsiske has disclosed that he has a relevant financial relationship with Posit Science Corporation. No one else in a position to control the content of this activity has any financial relationship(s) to disclose.
