“Hearing loss in older adults: Implications for healthy aging”

Presented by:

Frank Lin, PhD
Assistant Professor of Otolaryngology-Head & Neck Surgery and Epidemiology
Johns Hopkins University School of Medicine
Baltimore, MD

Monday, October 28, 2013, Noon – 1:00 PM
CTRB - Classroom 2161
Lunch Provided

Learning Objectives: At the conclusion of this presentation, participants should be able to:
1. Describe the association of hearing loss with cognitive and physical functioning in older adults
2. Describe current studies investigating the impact of hearing loss treatment on older adults
3. Discuss future trends in approaching and managing hearing loss as a public health problem

Dr. Lin has disclosed that he receives research support from NIDCD/NIH, American College of Surgeons/Triological Society and the Eleanor Schwartz Foundation. Dr. Lin is a consultant for Cochlear Americas and on the Scientific Advisory Board for Autifony, and Pfizer. He also receives speaker honoraria from Amplifon and Med-EL. No one else in a position to control the content of this activity has any financial relationship(s) to disclose.
