“A supplemental benefit to ACE inhibitor use for seniors with hypertension?”

Presented by:

**Thomas W. Buford, PhD**

Assistant Professor, Department of Aging and Geriatric Research

University of Florida, College of Medicine

Gainesville, FL

Monday, September 30, 2013, Noon – 1:00 PM

CTRB - Classroom 2161

Lunch Provided

**Learning Objectives:** At the conclusion of this presentation, participants should be able to:

1. Cite the clinical and public health implications of declining physical function and disability among older adults
2. Discuss exercise as a therapeutic intervention for preventing functional decline and explore future research opportunities in this area
3. Review evidence related to the use of ACE inhibitors and the enhancement of exercise efficacy
