“Update on Delirium”

Presented by:

Joseph H. Flaherty, MD

Professor, Division of Geriatrics, Department of Internal Medicine
Associate Chairman for Clinical Affairs for the Department of Internal Medicine
Saint Louis University School of Medicine

Monday, February 24th, 2014, Noon – 1:00 PM
CTR - Classroom 2161

Lunch Provided

Learning Objectives: At the conclusion of this presentation, participants should be able to:

1. Explain why Delirium has such negative consequences
2. Examine evaluation of patients for Delirium, even in the most subtle cases
3. Appraise the usefulness/non-usefulness of antipsychotics in Delirium based on the proposed neuropathophysiology of Delirium and the current research in the area of Delirium
4. Evaluate patients at risk for Delirium or with Delirium based on current practice and clinical studies (where available)
