“Metabolic regulation of mitochondrial dynamics”

Presented by

David Chan, MD/PhD
Professor, Division of Biology
Investigator, Howard Hughes Medical Institute
California Institute of Technology
Pasadena, CA

Monday, November 17, 2014
12:00 pm to 1:00 pm
Room 2161
Clinical Translational Research Building (CTRB)

Lunch will be provided

Learning Objectives: At the conclusion of this presentation, participants should be able to
1) Interpret how mitochondrial dynamics affects mitochondrial function.
2) Explain how the metabolic state of mitochondrial controls the process of mitochondrial fusion.
3) Evaluate how defects in mitochondrial dynamics lead to human disease.

CME Information:

Accreditation:
The University of Florida College of Medicine is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

Credit:
The University of Florida College of Medicine designates this live activity for a maximum of 1 AMA PRA Category 1 Credit™. Physicians should claim only the credit commensurate with the extent of their participation in the activity. The VA designates 1.0 hour of Continuing Education credit provided for its employees. Series #5120

Disclosure:
Dr. Chan has disclosed no relevant financial relationships. No one else in a position to control content has any financial relationship(s) to disclose.
