“Role of peripheral inflammation in age-related cognitive decline”

Presented by

Thomas C. Foster, PhD

Professor & Evelyn F. McKnight Chair for Research on Cognitive Aging and Memory
Department of Neuroscience
University of Florida

Monday, March 16, 2015
12:00 pm to 1:00 pm
Room 2161
Clinical Translational Research Building (CTRB)

Lunch will be provided

Learning Objectives: At the conclusion of this presentation, participants should be able to
1. Analyze how peripheral inflammation may contribute to neuronal dysfunction
2. Relate how these changes in inflammatory status lead to cognitive dysfunction

CME Information:

Accreditation:
The University of Florida College of Medicine is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

Credit:
The University of Florida College of Medicine designates this live activity for a maximum of 1 AMA PRA Category 1 Credit™. Physicians should claim only the credit commensurate with the extent of their participation in the activity. The VA designates 1.0 hour of Continuing Education credit provided for its employees. Series #5120
