“Working Towards a Systems-level Understanding of Cognitive Aging”

Presented by

Sara Burke, Ph.D.
Assistant Professor
Department of Neuroscience
College of Medicine, University of Florida
Gainesville, FL

Monday, May 18, 2015
12:00 pm to 1:00 pm
Room 2161
Clinical Translational Research Building (CTRB)

Lunch will be provided

Learning Objectives: At the conclusion of this presentation, participants should be able to

1. Evaluate the fundamental difficulty in treating cognitive dysfunction within a single modality.
2. Discuss the evidence for neural compensation in high-performing aged individuals.
3. Demonstrate the potential role of neural system functional connectivity in age-related memory decline.
