“Therapeutic application of the vascular niche to improve hematopoietic function”

Presented by

Jason M. Butler, Ph.D.
Assistant Professor
Ansary Stem Cell Institute
Weill Cornell Medical College

Monday, May 11, 2015
12:00 pm to 1:00 pm
Room 2161
Clinical Translational Research Building (CTRB)

Lunch will be provided

Learning Objectives: At the conclusion of this presentation, participants should be able to

1. Define the role of bone marrow niche cells in regulating normal hematopoietic stem cell function.
2. Analyze the utilization of vascular cells to enhance hematopoietic regeneration
3. Examine whether the aged vascular niche regulate hematopoietic stem cell dysfunction and leukemogenesis

CME Information:

Accreditation:
The University of Florida College of Medicine is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

Credit:
The University of Florida College of Medicine designates this live activity for a maximum of 1 AMA PRA Category 1 Credit™. Physicians should claim only the credit commensurate with the extent of their participation in the activity. The VA designates 1.0 hour of Continuing Education credit provided for its employees. Series #5120
