“Circadian rhythms, molecular clock and skeletal muscle weakness; a model of aging?”

Presented by

Dr. Karyn A. Esser

Monday, March 28, 2016
12:00 pm to 1:00 pm
Room 2161
Clinical Translational Research Building (CTRB)

Lunch will be provided

Learning Objectives: At the conclusion of this presentation, participants should be able to:

1. Explain the fundamentals of circadian rhythms and the molecular clock
2. Demonstrate the molecular clock in skeletal muscle
3. Analyze the functional and metabolic consequences of muscle clock disruption

Dr. Esser has disclosed no relevant financial relationships. No one else in a position to control content has any financial relationship(s) to disclose.

CME Information:

Accreditation:
The University of Florida College of Medicine is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

Credit:
The University of Florida College of Medicine designates this live activity for a maximum of 1 AMA PRA Category 1 Credit™. Physicians should claim only the credit commensurate with the extent of their participation in the activity. The VA designates 1.0 hour of Continuing Education credit provided for its employees. Series #6125
