“Investigating coordination impairments to advance the treatment of mobility limitations”

Presented by

Eric G. James, Ph.D.

Tuesday, January 17, 2017
12:00 pm to 1:00 pm
Room 3161/3162
Clinical Translational Research Building (CTRB)

Lunch will be provided

Learning Objectives: At the conclusion of this presentation, participants should be able to:

1. Distinguish the categories of rhythmic interlimb and gait coordination.
2. Identify the association of coordination impairments with mobility limitations.
3. Articulate the concept of differentiated motor control and its relationship with mobility limitations.

Dr. James has disclosed no relevant financial relationships. No one else in a position to control content has any financial relationship(s) to disclose.

CME Information:

Accreditation:
The University of Florida College of Medicine is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

Credit:
The University of Florida College of Medicine designates this live activity for a maximum of 1 AMA PRA Category 1 Credit™. Physicians should claim only the credit commensurate with the extent of their participation in the activity. The VA designates 1.0 hour of Continuing Education credit provided for its employees. Series #7137
