“Blood flow restriction exercise for older adults undergoing knee replacement surgery”

Presented by

Dr. Rene Przkora,

Monday, April 17, 2017
12:00 pm to 1:00 pm
Room 2161
Clinical Translational Research Building (CTRB)

Lunch will be provided

Learning Objectives: At the conclusion of this presentation, participants should be able to:

1. Recognize muscle loss and function after total knee replacement
2. Describe blood flow restriction exercise
3. Identify future applications for blood flow restriction exercise

Dr. Przkora has disclosed financial interest from grant/research support for a pilot-grant from the UF CTSI. No one else in a position to control the content of this activity has any financial relationships to disclose.
