"Sepsis in the Frail Elderly"

Presented by

Philip Efron, MD

Tuesday, May 08, 2018
12:00 pm to 1:00 pm
UF, Clinical Translational Research Building (CTRB), Room 2161
Lunch will be provided

Learning Objectives: At the conclusion of this presentation, participants should be able to:

1) Recognize that sepsis is a disease of the elderly
2) Describe that sepsis has had a paradigm change to survivors, rather than acute or subacute mortality, who often enter chronic critical illness and have an indolent death for many.
3) Identify novel technologies that are being studied in this population to try and improve their outcomes (ex. epigenetics).

Dr. Efron has disclosed no relevant financial relationships. No one else in a position to control content has any financial relationship(s) to disclose.

CME Information:

Accreditation:
The University of Florida College of Medicine is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

Credit:
