University of Florida
GERIATRIC MEDICINE FELLOWSHIP

CLINICAL TRACK
The clinical track emphasizes comprehensive interdisciplinary geriatric care. Fellows will teach and supervise medical students and internal medicine housestaff. Graduates will be well-prepared to pass the American Board of Internal Medicine and the American Board of Family Practice certification exams in geriatric medicine.

ACADEMIC TRACK
After completing the clinical track, academic track fellows spend another one to two years under the mentorship of senior investigators who have funding and research programs in areas ranging from preclinical gerontology to system redesign research. Graduates will be well-prepared to apply for peer-reviewed career development awards. Fellows may also participate in the advanced postgraduate program in clinical investigation, which offers courses such as epidemiology, biostatistics, study design, grant writing, and manuscript preparation. Participants can earn a Certification in Translational Health Science.

- UF Health Senior Care
- Oak Hammock at the University of Florida
- Signature HealthCARE of Gainesville
- Park Meadows Health and Rehabilitation Center
- Fixel Center for Neurological Diseases at UF Health
- UF Health Urology
- Palliative care at UF Health
- Geriatrics consult services at UF Health
- Veterans Affairs Geriatric Research Education and Clinical Centers programs:
  - Delirium consultation team
  - Palliative care service
  - Psychiatry services
- Additional UF Health electives available

The University of Florida is the flagship university of the state of Florida. Among all states, Florida has the highest proportion (17 percent) of adults 65 and older. UF, which boasts a 2,000-acre campus, is one of the most comprehensive universities in the nation, offering unparalleled opportunities for multidisciplinary aging research. Faculty collaborate with investigators from diverse programs such as the colleges of Health and Human Performance, Journalism and Communications, and Engineering. The primary teaching hospital is the 996-bed, on-campus UF Health Shands Hospital.

The Malcom Randall Veterans Affairs Medical Center is a major teaching hospital for UF that provides care to the largest patient population among Veterans Affairs hospitals.

Gainesville consistently ranks among America’s best places to live and offers outstanding cultural and environmental resources, excellent schools and a pleasant climate. Beautiful Atlantic and Gulf Coast beaches are one to two hours away.
