Non-drug Pain Treatment Study

Do you have pain in multiple places?

You may be eligible if you:

- Are age 60 +
- Speak/read English
- Can have an MRI
- Are physically mobile
- Have pain in multiple areas

What are we studying?

Dr. Yenisel Cruz-Almeida is investigating the effect of a mild form of brain stimulation called Transcranial Direct Current Stimulation (tDCS) as a new, non-invasive, pain-relieving treatment for older adults with pain at multiple places in their body.

What is required of you:

1. A Baseline-Screening Visit
2. Two tDCS treatment/Brain MRI visits scheduled two weeks apart

For more information, call: 352-294-8339

Compensation provided!
